

This tour is designed for breakaway days and residential visits, and puts the emphasis on fun. There will be some learning too, of course.

Students will hear stories about the harbour and be encouraged to look for historical evidence to encourage them to engage with the area and its history. You will be sent maps to colour in and label in the classroom.

Children can learn to tie knots with strawberry laces, engage in a quiz to win a Ferry flag by answering questions, spot wildlife, and find hidden parts of the harbour.
